XS-3XL	605 g	SLIM	PRIMALOFT SILVER

INSULATION	WATER PROTECTION	WIND PROTECTION	BREATHABILITY	PACKABLE
■■■■■	■■■■■	■■■■■	■■■■■	■■■■■

## FABRICS

The DWR finish helps repel water, snow and dirt from the surface of the garment. Made primarily with waterproof K-Dry fabrics with a 20,000mm water column and breathability of 60,000g/m<sup>2</sup>/24h. The side panels are made with highly breathable K-Shell. Thermo Fleece fabric is used inside the hood, on the sleeve cuffs, on the inside bottom of the jacket and inside the back. The insulation is PrimaLoft® Silver Active 100 on the sleeves and hood and 130 g on the body. The garment uses YKK® zippers.

## CONSTRUCTION

- Taped seams on hood and upper part of garment.
- Hood finished with elastic trim, shaped reinforced visor, inside lining and draw cord in back.
- Front Vislon® zip and flap behind zipper with fabric to protect chin.
- Two front zippered pockets.
- Internal sleeve cuffs in thermal fabric.
- Adjustable draw cord at bottom of jacket.
- One inside zippered pocket.
- One inside mesh pocket for skins.
- Thermal fabric inside hood and back.
- Reflective logos on back.

FABRICS

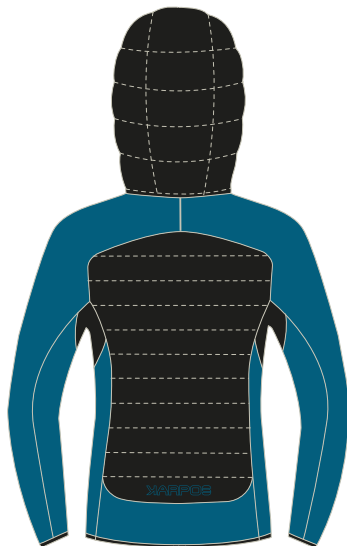

The main body and hood are made with highly abrasion-resistant windproof Cordura® fabric, insulated with 90/10 duck down with 750 fill power. The sleeves are made with Polartec® Thermal Pro fabric.

CONSTRUCTION

- Elastic trim on hood.
- Quick-opening front Vislon® zip with internal wind flap that forms zip garage.
- Two front pockets with invisible zips.
- Two high-capacity inside pockets.
- Elastic trim on sleeve end.
- Elastic trim at bottom of jacket.

## LYSKAMM EVO JACKET

SIZE	WEIGHT	FIT	FABRICS	
XXS - 3XL	345 g	REGULAR	 POLARTEC® Alpha™	 GOLD CROSS CORE
INSULATION	WATER PROTECTION	WIND PROTECTION	BREATHABILITY	PACKABLE
<div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div>	<div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div>	<div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div>	<div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div>	<div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div>

## FABRICS

Made with Polartec® Alpha Contact 90 g and PrimaLoft® Gold Cross Core 60 g insulation. The Polartec® Alpha is positioned where breathability is needed, on the underside of the sleeves, on the back and on the hood. PrimaLoft® with new aerogel technology, which increases thermal insulation by 50% compared to other PrimaLoft® insulation of the same weight, is placed on the body and sleeves to offer maximum warmth. The very lightweight outer fabric with DWR treatment offers excellent wind protection.

## CONSTRUCTION

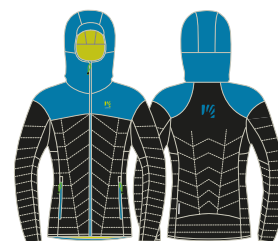

- Basic hood that also serves as stuff sack.
- Two front pockets with YKK® zips.
- Wind flap with zip garage.
- Fully seam-sealed jacket.
- Hood compatible with helmet, with front and back adjustment.
- Underarm zips for ventilation.
- Two front pockets with waterproof zippers, designed for use with harness.
- Inside pocket with zip.
- Inside mesh pocket.
- Waterproof flap behind zip.
- Velcro wrist closures.
- Adjustable draw cord at bottom of garment.

INSULATION	WATER PROTECTION	WIND PROTECTION	BREATHABILITY	PACKABLE
<div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div>	<div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div>	<div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div>	<div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div>	<div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div>

**FABRICS**  
Jacket made with two fabrics to ensure protection and warmth where needed. The hood is completely seam sealed to provide total protection from rain and snow. Waterproof fabric with a 20,000 mm water column and 41,000 g/m2/24h breathability is used on the hood, on the upper part of the sleeves and at the bottom of the garment. The rest of the jacket is made with a highly wind-resistant ripstop fabric with DWR outside and fleece on the inside.

- CONSTRUCTION**
- Shaped hood with rigid visor and draw cord for adjustment.
  - Waterproof front zip with wind flap and zip garage.
  - Two front pockets with waterproof zips.
  - Draw cord at bottom of jacket.
  - Velcro cuff adjustment.
  - One inside mesh pocket for skins.
  - Reflective detailing on back.

<div><div></div><div></div><div></div><div></div><div></div></div>	<div><div></div><div></div><div></div><div></div><div></div></div>	<div><div></div><div></div><div></div><div></div><div></div></div>	<div><div></div><div></div><div></div><div></div><div></div></div>	<div><div></div><div></div><div></div><div></div><div></div></div>

**FABRICS**  
The DWR finish helps repel water, snow and dirt from the surface of the garment. Most of the jacket is made of waterproof K-Dry fabrics with a 20,000 mm water column and breathability of 60,000 g/m2/24h. The side panels are made of highly breathable K-Shell fabric. Thermo Fleece fabric is used inside the hood, on the sleeve cuffs, and inside the garment at the bottom and on the back. The insulation is PrimaLoft® Silver Active 100 on the sleeves and hood, and 130 g on the body. The zippers are YKK®.

**CONSTRUCTION**

- Taped seams on hood and upper part of garment.
- Hood with elastic trim, shaped reinforced visor, lining on inside, and adjustable draw cord at back.
- Front Vislon® zip with flap behind with fabric to protect chin.
- Two front pockets with zip.
- Inside sleeve cuffs in thermal fabric.
- Adjustable draw cord at bottom of garment.
- One inside pocket with zip.
- One inside mesh pocket for skins.
- Thermal fabric inside hood and back.
- Karpos wordmark on back.

**FABRICS**  
Made with 20-denier Pertex® Quantum fabric with DWR treatment, 100% recycled. The main body is made with 150 g synthetic Air Flake insulation. The new Air Flake technology creates a synthetic alternative to down, using a continuous yarn that provides greater warmth, compactibility and lightness, in addition to maintaining its characteristics in wet or snowy conditions. Made with 150 g synthetic insulation on the hood, sides, and sleeves.

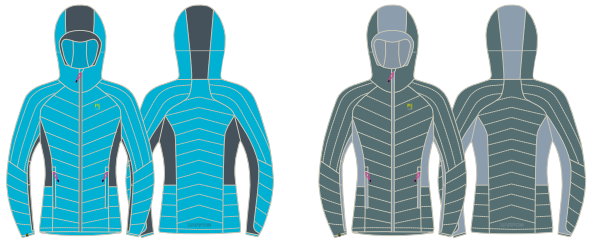

- CONSTRUCTION**
- Front Vislon® zip with internal wind flap.
  - Two front zippered pockets.
  - Elastic trim on sleeve end.
  - Shaped hood.
  - Adjustable draw cord at bottom of jacket.

FABRICS

The DWR finish helps repel water and dirt from the surface of the garment. Waterproof K-Dry (10,000 mm water column) on the yoke and at the bottom keep water and damp out, while K-Shell on the front and back protects without greatly limiting breathability. Embossed K-Shell on the sides increases breathability. Warmth is ensured by the hybrid insulation, with PrimaLoft® Silver Active 100 on the sleeves, hood, sides and bottom, and K-Synthetic Down Micro for the center of the garment. Thermo Fleece inner collar. All the zips are YKK®.

CONSTRUCTION

- Stretch stitching on hood.
- Thermal insert inside hood for increased comfort.
- Front Vislon® zip for faster opening and inside flap.
- Two front pockets with minimalist zip.
- Stretch stitching on back, sides and bottoms of sleeves.
- Elastic trim at wrist.
- Adjustable draw cord at bottom of jacket.

FABRICS

Suit made with Lycra® Power, with silicone anti-slip inserts on the shoulders and breathable mesh on the back. Windproof insert on the front of the pant for wind protection. Two roomy mesh pockets on the chest for skins and inside pocket in stretch mesh. Inside collar and cuffs in soft Thermo Fleece. Neoprene insert at bottom of pant leg. All the zips are YKK®.

CONSTRUCTION

- Front Vislon® zip with double sliders for faster opening.
- Zip garage.
- Silicone material on shoulders.
- Two zippered chest pockets for avalanche transceiver.
- Two roomy open pockets on chest for skins.
- Large inside pocket for skins.
- Small inside zippered pocket for race regulations.
- Cordura® on right side for greater protection.
- Front opening between pant and top.
- Bottom of leg reinforced to protect against sharp ski edges.
- Elastic at bottom of leg to keep suit in place against boot.

<div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div>	<div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div>	<div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div>	<div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div>	<div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div>

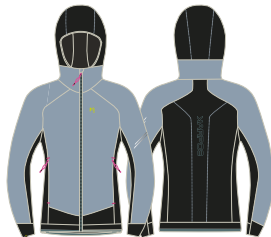

**FABRICS**  
Windproof fabric with DWR treatment and controlled airflow to increase breathability on front and front of sleeves. The insulation features an extremely lightweight fleece with Octa technology (50% recycled) that, thanks to the unique shape of the fiber, provides greater warmth, light weight, breathability, and compactibility. Brushed fleece on the back, hood, and sleeves.

- CONSTRUCTION**
- YKK® front zip with wind flap.
  - Two front zippered pockets.
  - Shaped hood.
  - Comb stitching for decreased thickness.
  - Thermal fabric cuff for snug closure around wrist.
  - Thumbhole at end of sleeve.
  - Elastic at bottom of jacket to hold garment close to body.
  - Reflective logo on left sleeve.
